IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Karen KETCHUM et al.

Art Unit: 1647

Serial No. 09/829,432

Examiner: J. Seharaseyon

Filed: April 10, 2001

Atty. Docket: CL001013-CIP

For: ISOLATED HUMAN TRANSPORTER PROTEINS, NUCLEIC ACID MOLECULES ENCODING HUMAN TRANSPORTER PROTEINS, AND USES THEREOF

Statement Regarding Duty Of Disclose Information Material To Patentability Under 37 CFR 1.56 (a) and (b)

Honorable Commissioner of Patents and Trademarks Washington, D.C. 20231

By Facsimile

Sir:

This statement is to inform the United States of Patent and Trademark Office that Applicants and their representative have made a good faith effort in searching prior art relating to this invention.

No prior art material to patentability of the present invention has been found. The closest information associated with the invention is disclosed in Figures 1 and 2 in the top BLAST search results. However, this information, by itself or in combination with other information, does not constitute a prima facie case of unpatentability of any of the pending claims. Thus, it does not defeat the novelty of the present invention and the actual underlying references for the top BLAST hits are not being provided.

Respectfully submitted.
